# WASH Program

## Rehabilitation of 10 water sources and construction of 10 stone tanks with water point :

As a part of the WASH intervention in Hawrah and Al-Ahbol areas - Milhan district of AlMahwit GOV, WASH team handed over the targeted sites for contractor to start the implementation of rehabilitation and construction .

Despite the environmental, dangerous road and hard accessibility of water sources that caused a delay in material arrival, the civil works started in 10 sites (7 in Al-Ahbol 3 in Hwarah) which are leveling and settlement of sites , foundation works ,works of concrete , works of reinforcement concrete , works of stone masonry.

## Distribution of (ceramic filters – jerry cans 10L\_20L- CHKs) Distribution is implemented in two stages:

### In distribution site

Because the global epidemic of COVID-19, YDN team take in consideration the protection measures infection and worked to reduce all those risk in the distribution site by:

- Choosing a suitable site for distribution with one entry only.
- limit the number of beneficiaries entering the distribution site to avoid excess gathering .
- Sterilizing the beneficiaries hands by hand sanitizer gel .
- Using personal protective equipment (PPE) in the distribution site include (gloves and mask) for distribution team members and beneficiaries .
- Keep a safe distance between beneficiaries in line about 1 meter.

### "door to door "

YDN team distributed the aids by reaching the houses for beneficiaries who couldn't come to the selected distribution sites.

The beneficiaries targeted by this method were persons with disabilities \_ elderly people and women .

## Hygiene awareness sessions:

YDN conducted 70 awareness sessions about hygiene and COVID-19

The messages were

- What is COVID19?
- How to protect your self from COVID 19.
- How COVID19 spreads?
- Good and right practices to protect from COVID 19.
- Why hygiene important in case COVID 19 outbreak.

# Protection Program

**On International Women's Day, YDN team celebrated this occasion:**

On this day, March 8, the United Nations, the international community, and the world as a whole celebrate the International Women's Day as a day honoring women and with appreciation and appreciation for their constructive role by advancing their reality and lifting injustice and criminalizing violence against women in all its forms and images. The Yemeni Development Network for NGOs celebrated this occasion and invited governments, international organizations and NGOs To celebrate it under the slogan (I am an equal generation) for the year 2020, This occasion passes on the woman in our country and Yemen entering her fifth year of war and the woman is experiencing a great tragedy as a result of the war and the blockade

# Shelter Program

Despite the prevailing operational and security challenges, Yemeni Development Network for NGOs delivery of assistance to people in need, reaching out a total of 1,836 IDPs and vulnerable host community affected by the last conflict escalation events in west of Marib governorate where are reached in Madghil, Sirwah, Marib city districts, during the project period through coordinating and working hardly to deliver the response. Overall, 1,000 IDPs Families equivalent to 6,000 individuals were assisted with NFIs, 1,000 IDPs Families equivalent to 6,000 with ESKs, 1,000 with cash for work assistance for tent installations and 1,400 IDPs Families equivalent to 8,400 individuals were provided winterization support.

- In response to recent displacements in Marib, Al Jawf, and Nimh, Sana'a Governorate Sana'a, over 1,836 families assisted with basic households items and Emergency Shelters, primarily tents and winterization kits. Efforts have been made to mobilize shelter/NFI resources for affected families to contribute reduction the existed gaps and as preparedness plan for further displacements expected in the upcoming days for shelter cluster.

## Conducting needs assessment, selection and registration of beneficiaries:

The needs assessment for the displaced people in Al-Khaniq camp was estimated to be done in January 20, 2020, knowing that a lot of coordination efforts have been made to do this activity with the local authorities, the executive unit and the camp administration, but as a result of the recent escalation of the armed conflict the area . The activity was impossible to be done after the IDPs left the camp to unknown locations. So the activity was changed to tracking and verifying the whereabouts of the IDPs arriving from these areas to the districts of the city of Marib, Sirwah and Madghal in the governorate of Marib.

## Distribution of winter NFIs, ESK and INFIs :

Coordination was held with the local authority in the distribution areas to arrange the security situation, and we were supported by security men to organize the flow of the IDPs during the distribution. Distribution locations were chosen based on analysis of the results of the Focus Group Discussions (FGD) that took place on the seventh and eighth of March.

The chosen locations of distribution were in Marib city which were distributed by 700 WKs in the end of Feb and for March where Madghal and Sirwah which were distributed by 700 WKs, 1000 ESK and 1000 NFIs.

541 WKs, 571 ESK and 571 NFIs were distributed in the Madghal District. As for Sirwah District, the distribution was in different areas and IDPs hosting sites. 55 ESK and 55 NFIs were distributed in different areas of Sarwah. As for the IDPs hosting sites the distribution was as follows:

70 WKs, 4 ESK and 4 NFIs in Alswyda camp. 90 ESK and 90 NFIs in Almile camp. 89 WKs 28 ESK and 28 NFIs in Alkhair camp.

# Education Program

## Providing water tanks for government schools:

We carried out a field survey and conducted a need survey of (5) government schools in the seventy district in Amant alasima .

An application was submitted to the Education Office and a request to UNICEF to facilitate the service provision and provide schools with water tanks

# Health & Nutrition Program

YDN is currently supporting 1 district hospital (DH) and 1 medical mobile team (MMT) in Amran governorate and 3 HFs in Milhan district in Al-Mahwait governorate with health and nutrition services, as part of the “integrated health, nutrition and WaSH project” funded by YHF.

The project provides services primary and secondary health care, and nutrition services including both treatment and prevention services. targeted health facilities.

A total of 8,561 people were reached with health services that include IMCI, reproductive health care and consultations, and 2487 people reached with nutrition services including treatment and prevention services.

## Training course for health workers on Infection prevention and control (IPC):

One training course was conducted in Amran governorate in 5<sup>th</sup> April 2020. The training targeted 30 health workers from Maswar district hospital. Training session was conducted as a response to the COVID-19. 30 Health workers in Maswar DH trained on the proper measures to prevent and control any infection including Corona virus infection. Main topics included in the course were administrative regulations for the prevention of infection of health service providers Infection prevention procedures in clinics, Primary Health Care, Preventing the spread of infection and Family education and health Facility Care, Environmental hygiene and Waste disposal methods.

## Awareness sessions on Health and Nutrition key messages for community:

The community health volunteers and health workers in the targeted areas. Awareness sessions on health and nutrition key messages and hygiene practices the COVID -19 preventive measures were involving in the sessions. 31 sessions were conducted in Amran governorate and 24 sessions were conducted in Al-Mahwait governorate a total of 2787 people were targeted in this sessions with all age and sex categories from the community.
